SECTION A - INFORMATION

14 CCR § 7501 (a)(4) requires that prior to the issuance of a For-Hire Vessel Operator's License, the applicant shall meet the requirements under that section, including the submission of a report, on forms provided by the Department of Parks and Recreation, of a medical examination by a licensed physician within sixty (60) days of the date of application indicating:

(A) Diseases and other physical or mental defects. Conditions such as epilepsy, insanity, senility, acute general disease or neurosyphilis, badly impaired hearing, or other defect that would render the applicant incompetent to perform the ordinary duties of a licensed operator are grounds for refusal to issue a license.

(B) Possession, either with or without glasses, of at least 20/20 vision in one eye and at least 20/40 in the other. The applicant who wears glasses, however, must also be able to pass a test without glasses of at least 20/100 in both eyes.

(C) Unimpaired color sense as tested by a test utilized by the U.S. Coast Guard to determine color sense, or a similar test. This requirement may be waived if the operation of vessels for which the license is sought will be limited to hours of daylight; provided that any license issued on the basis of such waiver will be limited to operation of vessels during hours of daylight.
